

Ishdeep Narang is not the worst psychiatrist ever, he is simply not a psychiatrist. He is just way too unprofessional, uncouth and unkind. The first time I met him in March 2020 I stated the fact that "I respect psychiatrists less than I respect prostitutes" because I never got the professionalism and respect I needed or wanted until I met my current psychiatrist Marie Thompson who has diagnosed me with PTSD from the torture Ishdeep narang and his colleague Ewald Horwath put me through. I'm still not a threat to myself or others in any way, shape or form but I do have severe PTSD from his torture. I never had a single mental health problem in my life before that. I will confess to even hitting my mother when she said "Psychiatrists are not as cruel as Nazis." She was right about every psychiatrist besides Ishdeep and maybe Ewald. Marie is great tbh. To be clear, I sent the exact same initial messages to Ewald Horwath and he, like a normal psychiatrist, just ignored them. Ishdeep is such a lunatic he has been continuously calling me up calling me a "loser", "retard", "randi ke bacche"(prostitute's son), "bhosruke"(vagina), "kutte"(bitch), "kamine"(bastard) and everything else under the sun. He even threatened to "fuck up my mother". All I ever said was that he was more cruel than adolf hitler also but he started it. He caused all the problems. I was just defending myself and my mother. And to be clear, every lawyer who knows how he tortured me with solitary confinement for 6 fucking months or so, force feeding me, force medicating haldol up my ass when I had no mental health problems whatsoever in my life before 2020 in addition to every other coercive medical practice under the sun when I had no mental health problems before meeting him knows that said coercive medical psychiatric practices like that are acceptable under the law but refusing to take the threat that I would cut off my ear or commit suicide seriously because of his torture is not. When I told him I wanted to commit suicide because of his torture, he said "I did nothing to you. You're not going to commit suicide" and even did the same thing when I threatened to cut off my ear. I thankfully have some part of my ear and I can hear ok and am very happy I am alive to bring him to justice but the lawyers even refused to work pro-bono though and I am disappointed about that. I have the scars on my ear and the hospitalizations due to his torture on the Ohio Metrohealth EMRs for proof. The conversations I have attached show 90% of the verbal abuse he dished out that I mentioned and if you just look at the hospital records you will see he has filed court cases against me for breaking a trim when he was torturing me for the capital crime of refusing to eat so that I would not be driven crazy by his psychotropic drugs and commit suicide or cut off my ear. Like I said, I do have a scar on my ear and hit my mom even because of his torture so he won that way but I am alive and going to make sure he tortures no one else one way or the other way and that means he lost in addition to the fact I will overcome my and so many other children's torture and bring him and all other abusive psychiatrists to justice. This is also not pernicious to me but he even tried to offer genital mutilation in the guise of "gender-affirming care" to me back in 2020. And then he thinks I am going to take his help, fuck him. The worst part of all is that he

called me a “racist.” I don’t know if it is recorded in any of the texts but firstly and less importantly, we’re both Indians and I don’t hate myself so how could I possibly hate him. Secondly, and more importantly, he tortures me, destroys my life, threatens to kill my mother, sends such disgusting messages and then goes crying to the police I am the one harassing him. I don’t know if those phone calls from late June/early July 2023 in particular can be retrieved given he thinks he’s very smart calling me from a private number but I assure you he is lying if he denies he didn’t make the calls threatening to kill my mother and me when I repeatedly texted his wife to “rape Gurbaaz and Viraaj with gender affirming care the way Ishdeep does to others’ kids”. I want to be clear, I didn’t even want to hurt him or his kids physically, I just wanted revenge for the mental trauma the idiot puts everyone through. I wasn’t thinking straight due to the PTSD this dumbfuck caused. Even innocent Param doesn’t need to respond but crazy Ishdeep has no remorse. I ask for jail time for sending death threats, harassment and stalking, refusing to do his job and not acknowledging his torture made me cut off my ear and attempt suicide because he refused to provide services when I needed them given he was trying to make me commit suicide like the rest of his victims. He doesn’t have patients, he has victims. Nobody likes him. The records at his and Ewald’s asylum are probably falsified also. The death threats started to be sent from the day I told his wife to perform gender affirming care on his kids in June/July 2023 because the only way the bastard will understand his behavior is unacceptable is if his kids are given “gender affirming care”. And Param doesn’t have mental health problems, I have PTSD from his torture, lost my ear, attempted suicide and the idiot wants to cry about his stupid wife and kids. Fuck them, I don’t care. I hope his kids and wife leave him because he is clearly an unfit parent. He’s been trying to call me up as recently as 2 days ago when I’m at work just because I am having flashbacks to his torture. And Ewald literally yelled at him that he is being too cruel to me. Ewald doesn’t send these crazy social media messages. He’s literally been practicing psychiatry longer than I have been living and he wants to yell he’s in training behaving like a 6 year old. He is 46. Fuck him. He has no hope and he deserves the death penalty for his crimes. Not Param, not Gurbaaz, not Viraaj, not Ewald, him. He takes things too far. Param doesn’t act crazy like him 24x7x365 calling me up calling me a “loser”, “retard”, “randi ke bacche”(prostitute’s son), “bhosruke”(vagina), “kutte”(bitch), “kamine”(bastard) and everything else under the sun. He even threatened to “fuck up my mother”, called me a “racist”.
